## PRECISION MANUFACTURING

# ABOUT US

Artifex Solutions, LLC is a precision manufacturer based in San Juan, PR, providing contract manufacturing services for medical device companies and other high precision industries. The company operates from a 7,000 sq ft. facility located near the Hato Rey business district in San Juan.

We work with our customer's team to identify the most efficient strategy to turn their designs into a finished product, using our team's experience, to deliver a high-quality precision device that exceeds their expectations.

At Artifex Solutions we are constantly striving to improve the processes used in the devices we manufacture. Our production staff is highly skilled using innovative machining techniques such as gun drilling, thread whirling, etc. to maximize efficiency when manufacturing the most complex devices.

We are a growing business and year after year we continue to expand and implement new technologies to keep Artifex at the forefront of the industry.

## QUALITY MANAGEMENT SYSTEM

Delivering uncompromising quality is at the foundation of our business philosophy. Our quality management system is certified to ISO 13485:2016. We are FDA registered and comply with 21 CFR Part 820 Subparts A-O.

Every step of our manufacturing process is strictly controlled to ensure the products delivered to our customers will meet or exceed their requirements.

Our QA department is constantly exploring ways to improve the quality systems that drive all our business activities with particular attention to the services we provide to our customers.

## QUALITY POLICY

Artifex Solutions, LLC is committed to manufacturing high quality products that exceed the expectations of our customers while maintaining an effective quality management system and complying with regulatory requirements.

**OUR MANUFACTURING PROFESSIONALS WORKS CLOSELY WITH EACH CUSTOMER TO MEET THEIR PRODUCTION NEEDS AT A COMPETITIVE PRICE AND DELIVERED ON TIME.**
